Description:

As per discussion with SEO team and Hamid sir, we need to remove WhatsApp icons from the Ecommerce site and fix the overlapping issues as well.

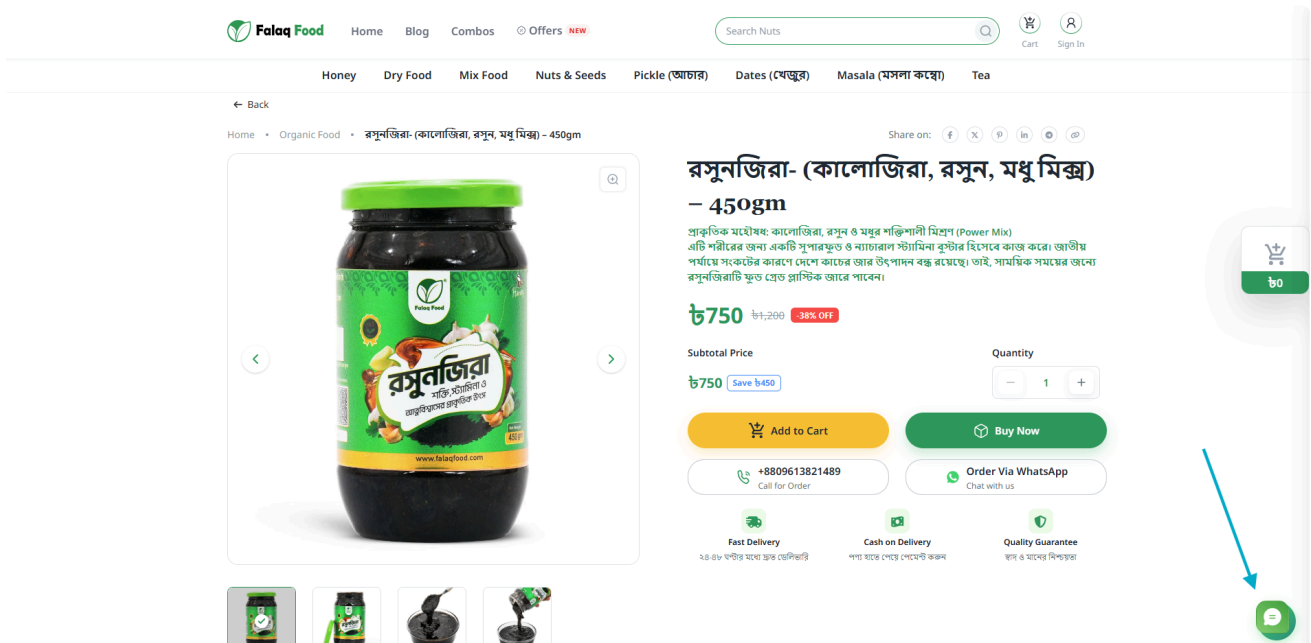

Here are the requirements:

1. Remove WhatsApp icon and button from everywhere from the storefront.
2. Only product details page should have the sending WhatsApp message option -

Do not remove this.

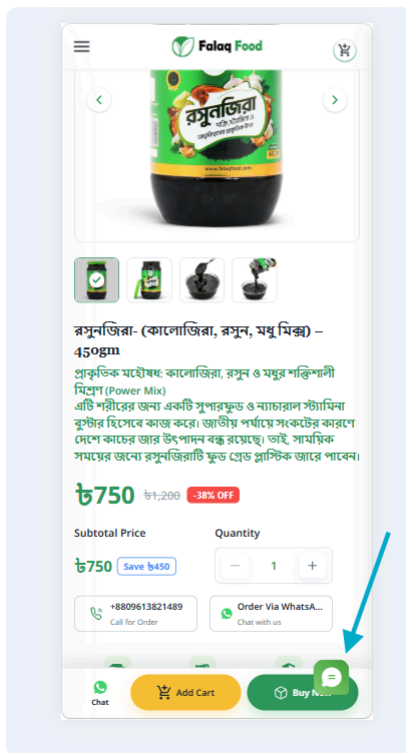

3. Fix all the Overlapping issues.

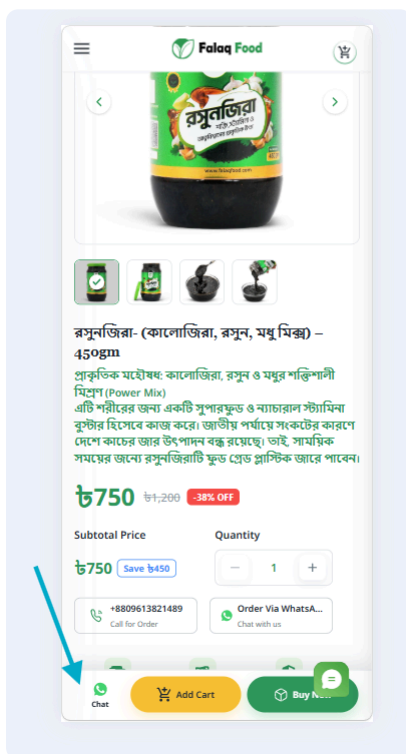

Open

Storefront WhatsApp Icon Removal and Overlap Issue #477

4. Remove this button from phone view as well.

Create sub-issue
